AFONSO MANUEL DINIS DE PAULA
Student - Computer Science & Engineering

EDUCATION

Master's Degree - Computer Science & Engineering (Erasmus Programme) — **OnGoing**
Bialystok University of Technology - Białystok, Poland

Master's Degree - Computer Science & Engineering — **2022 - OnGoing**
U.Beira Interior - Covilhã, Portugal

Bachelor's Degree - Computer Science & Engineering — **2019 - 2023**
U.Beira Interior - Covilhã, Portugal

High School Area - Science & Technology — **2016 - 2019**
Secondary School Mouzinho da Silveira - Portalegre, Portugal

PROJECTS

Data Analysis — **2023 - OnGoing**
Tools: Pandas, Numpy, Seaborn, Matplotlib
Built a data analysis repository by my interest for the subject. Learned skills in exploring, visualizing, cleaning, and acquiring data.

Web Corpora Operaions — **2023**
Tools: PHP, HTML5, CSS, JavaScript, SQL Server and Git
My bachelor's final project, titled 'Web Corpora Operations', was developed to provide a tool aiding linguists and other professionals in comprehending and exploring the usage of specific words across different contexts on the internet (Grade: 18/20).

Queries Manager — **2023**
Tools: PHP, CodeIgniter4, HTML5, Bootstrap, MySQL
Developed an authentication and query management tool, enabling users to add, edit, and delete important queries. Explored CRUD (Create, Read, Update, Delete) operations to provide a personalized and efficient user experience.

Apis Melifera Honeybee — **2022**
Tool: Pandas, Numpy, Machine Learning Models
This project aims to develop various machine learning models to predict the occurrence of a bee species in different regions of the Iberian Peninsula, in order to determine which one performs best in the prediction task.
